Thread: [Any skype coding .net coding groups?](#)

Priology - November 22, 2015, 1:58 am

Looking to join one since I got removed from the one I was in for stupid reasons.

Anyway, I'm a beginner in C# and looking for a group to discuss ideas and stuff with.

PM me, thanks.

I'm in this Skype group for more than a year and we have still 15-20 active members.

Check it out, we are open for new .NET programmers ! ->

I do not recommend this one, it has abusive mods that will mute and kick you if you don't give them reputation.
