Thread: [Social Networking | Skype group](#)

**uzr#** - November 22, 2015, 3:24 pm

Hello fellow members of HF!

I've recently gotten into social networking, usernames, growing accounts, and getting money from it.

I've been looking around a bit without finding any skype groups where people talk about theses things. So I thought, hell, why not make one?

So, if you are interested in social networking you should come and join the group!  
You need to be active in the group.

What's okay to talk about? Social Networking

Instagram

Facebook

Twitter

Youtube

Snapchat

etc.

Growing accounts

Username

Making money

And more!

If you are interested in joining, send me a PM and i'll add you to the skype group!
