As the title says I am looking for someone who can do this. I am not the one who wants it done but it is for the brother of a friend of mine. He said he will help me out with christmas if I can help him find someone who can do this for him. It is for xbox live.It's reach online multi-player.

If you do this please let me know thanks.

I still don't get what you're trying to say.

Sorry guys I am not trolling . a buddy said he would help me out with getting my kids christmas gifts if I helped him get his brother's halo game account modded. I am not sure if this can be done or not but I told him I would ask.

I thought people modded halo games all the time? Guess I am wrong oh well I tried right xD

You can mod Halo games, however the game you mentioned "Halo: Anniversary" for Xbox 360 is a purely offline game. The only moddable thing for that game would be the achievements. Is that what you're asking?
