In essence, the theory and practicality of the method is superb. I can see this method succeeding with little to no effort. I will not hesitate to put this method to use in the coming hours. I will report back soon with results.

Design - 10/10
Method - 10/10
Originality - 10/10

I cannot emphasise how good the quality of the ebook is. Highly recommended to other uses. Their method is not illegal, but rather, 100% legal and easy to use.

Thanks!

Quote:Hey guys, I also received a vouch copy of Opulence and, honestly, this is unbelievable.

I gave the method a go a few hours ago and yes, it has worked. I can see this being REALLY worth more than the advertised amount. I'm going slow, however, just so that I can learn about it a bit more but when I become more adept, I'll post back here with my new earnings.

In 4 hours, I've been able to make some money straight off the bat. The process takes a few hours but honestly, it can really work well.

Here are my ratings:

Price - 9/10

Method - 8/10 (I think I can notice some areas where I can monetize more efficiently)

Design - 9/10 (Ya Habibi has really taken the time and effort to make Opulence visually appealing)

So there we go, that's my honest review. I hope to see other users making money from this, or as Ya Habibi likes to say, becoming opulent, haha!

Quote:I received a vouch copy. Here is my review:

I haven't tried the method out since I am busy with other projects, but this seems like in theory it would work. I have seen SIMILAR methods out there, but this one definitely is unique in its own way that I have not seen before on HF or any other forum.

For the price, you can easily make it back if you put in the work. The guide itself is pretty detailed with what to do and there are a couple other docs in the file that help supplement what he talks about. The design of the guide is clean and well organized, so no complaints there.

Like any legitimate method, you won't make money unless you don't put in the work. This is no different, so if you are driven and ready to put in some work, this can easily make you some cash.

If you're giving out a vouch copy I'd be happy to take it,
In exchange I'd write out a nice review :)

Thanks buddy, I've responded to your messages. We'll sort this out together.

@Paul

Thanks for the detailed review.

Yes, it does require some work but I've made sure that it is kept to a minimum. The only tasks you are required to do take around 5-10 minutes max.

Regards.

Just an update.

There was a small complication in the method but Ya Habibi helped me to overcome it.
Also just letting everyone know, this is probably the one eBook I would suggest for any newbies like me who are just starting out.
It works.
