30 minutes of work and some waiting

Gone are those days when you'd spend a lot of time with no results! Here is something which is easier to setup. Easier to scale and less time consuming!

This is not..

Torrent

Emailing

OR ANYTHING that wastes your time!

FAQ: Is this method beginner friendly?

A: Yes, this is very easy and beginner friendly. As long as you have basic computer knowledge.

Do you provide support?

A: Yes, I do provide basic support with the beginner package, however if you'd like 1-on-1 Skype voice support then you'd have to buy the Intermediate or the Ultimate package.

Do I need any investment?

A: Not necessarily, but I'd recommend having 5-15\$ in the beginning.

How many bots can I get?

A: This question entirely depends on your niche and time, but if you do it right, 100+ a day is EASY if your stub is FUD.

TOS:

1. No refunds.
2. Leaking this would result in a community alert and rage.
3. Any attempt to chargeback would result in a scam report.
4. I'm not responsible for any damage or law enforcement.

I'm sorry but I do not sell any kind of exploits.

nikobellic1 - December 20, 2015, 4:03 am

What is this for then?

100 install per day is easy through exploit in application and browser.

So we use that and get maximum spreading

Can you contact me on Jabber?
