Thread: [Middleman Service | Vouched & Trusted Member](#)

Mons - November 24, 2015, 11:37 am

Hello HF community,

As contribution to this great community, I will be offering a middleman service for free.

I will be holding irreversible currencies only, so I won't be holding PayPal. Which wouldn't be needed in most cases anyway.

Payment Methods I can hold:

Bitcoin, Altcoins (Litecoin, Dogecoin etc), Gift Cards and anything else that wouldn't be too much of a hassle.

How will this work?

Example: You are selling Bitcoins for PayPal money.

1. You send the Bitcoins to my BTC address.
2. You send the blockchain transaction link to your buyer.
3. He sends you the PayPal money.
4. You and your buyer send me a [PM](#) including the following:
 - BTC transaction link
 - BTC address of buyer
 - Amount of BTC that is to be sent
5. I send the Bitcoins that you sent me to your buyer.

I will be responding fast.

Should the deal not work out, I will refund the Bitcoins to the sender, after both parties have confirmed this.

[color=#FFFFFF]For regular members that are unable to send me a PM, you can send me a message via Email or Skype.
