At first I didn't care much for the lines on her face, but they sucked me into the picture within the second. Something about the face hits home that i'm not sure I can identify. The only fault is that the right eye is a bit too low. I noticed that after looking for a few seconds though so it's not too bad.

Yeah I had to go back and try to fix it like 20 times. I'm bad at proportions.
