Thread: [Automatic store \(BTC\) with ticket support system\[INCLUDING 2 EBOOKS\]\[\\$200\] MAKE \\$\\$\\$\\$](#)

© ÉliXéd_ - November 28, 2015, 10:50 am

You can also use this site for any other product, not only ebooks. Really easy to use.

The site is: <http://elixed-ebooks.co/>

I got a new job as agent for a big company in the Netherlands. Because of this I don't have time for online projects anymore, need full focus on the job. I will be selling all my projects including this one.

Fully working automatic e-book store(website) with autobuy BTC, ticket support system and including 2 E-books which will be fully yours. You can create "moderator" accounts in the CP, these users can only view/reply to support tickets. For extra payment I can also create paypal IPN.(now only automatic BTC payments)

You will also receive the domain and 1 year of free hosting.

Full ownership of:

Ebook 1(old thread): <https://hackforums.net/showthread.php?tid=4097728>

Ebook 2(old thread): <https://hackforums.net/showthread.php?tid=5039341>

Images: Spoiler ([Click to View](#))

It also is very easy to add new products, it's in a config file which is editable in the CP. Like:

```
Code    $config_product[1] = array(
        'title' => 'NINJA EBOOK',
        'price_usd' => 5,
        'download' => 'NinjaDoxing.pdf',
        'desc' => 'This ebook comes with 100 pages and learns you everything about
```

DoXing people.

Ever wanted to start your own DoX service or DoX someone yourself isn't a problem anymore after reading this great ebook!

As all E-Books this comes with 24/7 free ticket support from our support professionals!);

The folder of the file is also editable in the config file. It will be outside the public html ofcourse.

If i'm not online on HF then you can contact me on skype: rsportalvince
