Thread: [Main account stolen](#)

username_temp1273527 - November 28, 2015, 11:01 pm

I noticed a week or two back I couldn't login anymore.

Email wasn't valid anymore..

Sent 3 support tickets with all the information as well.

Account :profileuid=1273527 Araxxor

The username was Vergodin but he/she changed the name to Araxxor and apparently scammed someone.

Can provide any extra info, ip location.

Had the account for years didn't have gauth code so..

Lawsuit - November 28, 2015, 11:03 pm

No gauth means you'll most likely get closed =\

Awesome! Well no more HF anymore. :P

Waste of posts buying uber and blah but that sucks

This, I believe omni has made it clear that if any Uber account is "stolen", it'll get closed if gauth wasn't enabled.

You should have enabled gauth, if you really cared about your account :3

Send in a contact form and wait patiently. That's the most that you can do at the moment.

If you haven't done so already you can fill one out here:

Yeah I did a couple days ago. Either way glfh lmao

Wirt - November 29, 2015, 10:13 am

It seems as if it has been closed. You were Ub3r and had the option to enable 2fa, and if you had your account wouldn't been stolen. Omniscient isn't recovering accounts anymore for Ub3rs/3p1cs that did not enable 2fa.
