Thread: [RazorCrypt + IM4](#)

?SilenceFiction - November 29, 2015, 12:32 am

Every time I try to run the file with after using RazorCrypt on IM4's stub. (Also tried with all settings OFF on both programs).

What am I doing wrong?

TRH4CK - November 29, 2015, 12:34 am

Something is wrong while compiling I guess.. You will probably have to wait for Razor for this one ..

Yea but he never replies...

Peori0y - November 29, 2015, 2:50 am

The owner of IM also never replies. Bought the wrong RAT and Crypter if you need support.

Yay..... ?

Cyber Coder - November 29, 2015, 4:29 am

wasn't razor incompatible with .net apps? last time that's what i heard, maybe he enhanced his compatibility lately

?SilenceFiction - November 30, 2015, 4:35 am

UPDATE:

I am now getting the following error when trying to run the crypted file:

SIM-2564555 - November 30, 2015, 5:34 am

ok if U wanna something private PM me , u can have a special method Crypt Bind spread , all that FUD runtime , tested with 3000 bots
