Hi,

Mate, I have been in to writing content for some college students and content writing for some university assignments too.

This .edu e-mail would give a professional approach to my work and can be really helpful.

I would be thankful to you, if I get this. ?

i'd like an edu email to indulge in products provided to students i couldn't otherwise access, im not a student. generous of you to offer this to the community, thank you.

I would love to have an .edu email. I'm a student but my university doesn't provide .edu emails. I need it to get free access to one drive, office 365 and many other freebies that this email gives me. Thanks

I would love a .edu mail so I can activate my office student since I didn't get one at my school.

I want one because I'm madly in love with Coulson. The sad part of this story is that I can't buy him gifts that he rightfully deserves. Why you may ask? Because I feel as if the only gifts that are up-to-par with his standards are luxury items. These items are expensive but with an .EDU email, I can get all these items by using a discounted price.

Thank you.

Gt403cyl - November 29, 2015, 9:50 am

Looking to get a .edu so I can get software cheaper, not much else to say.

Headdy - November 29, 2015, 9:51 am

I would finally use Office 365 to edit files at my school -- because my school doesn't supply Office 365.

Which means, I'm always losing my documents, forgetting them, with Office 365 that wouldn't happen again.

Thanks in advance. Have a nice day.
