Thread: [How to get lifetime Cloud Server Method | Vouched | Working 100%| Lifetime|](#).

Good kid mad city - December 1, 2015, 8:58 am

After my success in the last method, Which was how to get unlimited free vps trials :

<https://hackforums.net/showthread.php?tid=5077785>

I decided to publish this E-Book or Method about how to get a lifetime Cloud Server. (Can be done Several times).

what is Cloud Server:

To put it simply, cloud servers mean virtual servers which run on cloud computing environment. That is why very often Cloud Servers are referred to as Virtual Dedicated Servers (VDS). While it is true that every cloud server can be called a virtual dedicated server, the opposite is not always true.

Thats google definition to make it easy it means that you can make virtual servers from it (Noob meaning) For example you got a 10 GB ram cloud server and a 5 cpu core cloud server you can make out of it 10 vps each 1 gb and 0.5 core or another example 5 vps each 2 gb ram and 1 core.

Cloud Server Specs: 5 Instances 5 vCPUs 5GB RAM 5 IP Addresses 10 Security Groups 10 Volumes 20GB Volume Storage

Auto buy The Method : <https://payivy.com/v/1be56>

Tos:

- No Leaking or reselling.
- No refunds (Method works 100%).
- When the company is out of Cloud Servers i will close this thread but each one who bought cant make anymore cloud servers but they can use the ones they got because its lifetime

What a unique method. I've never seen it anywhere before. As OP said, it IS repeatable. I haven't tested where or not the method works, but the guide itself is simple, straightforward, and contains only a couple grammatical errors. Definitely going to give this a shot when I get home from school. Will post results ^^

GLWS.

The eBook is clean an easy to read. IMO this shouldn't even be called an eBook as the OP literally hands you a quick few steps on a silver plate. It is easily repeatable with little effort, and it only has 9 steps to it. It does in fact work, and I haven't seen this method yet on Hack Forums. I was able to read the method with ease and it was very easy to understand. With these simple steps, there is no

entire way somebody would be able to mess this up.

Nicely done OP. Vouch from me.

(Dec 1, 2015 06:28 AM)PrivateDonut Wrote: [\[CITE\]](#) OP was nice enough to provide me with a vouch copy, so first off thank you! The eBook/method is very simple to use, and it works perfectly, it takes very little steps and doesn't even require a personal email (you can use the 10 minute email site). I have yet to see this method, and I have gotten quite a few different VPS methods over the past year. So it's quite unique. My review of the eBook is 10/10. Vouch for the method. ?

Dude why?? Lol - December 1, 2015, 9:00 am

Took a Vouch Copy. Uniqueness at its best. This method gives us the exact thing mentions. straight to the point, no bullshit. 10/10

I wouldn't mind a vouch copy if you're still giving them out. Thanks
