Thread: [BEWARE!! Its coming soon. Blackshades legacy sets it's foot back.](#)

Cryptex_reborn - December 1, 2015, 9:27 am

I am bound, I can't say a lot.

BEWARE, the BLACKSHADES LEGACY is returning.

Junk your laptops, wipe your HDDs, format your machines.

Its not just Cryptex anymore, recently its been difficult for me, but being a member for so long, I must warn you of what is coming ahead.

LL IM nothing is safe.

I read my last thread replies, to those of you who think I am not me, you will know soon.

I have experienced a lot of unusual activity on here to which most of the serious members will agree.

This is a warning before the storm, pack up and leave, trust me, something insane is coming.

Aint Giving Up - December 1, 2015, 9:29 am

So why aren't you posting from your real account

JohnAnonDoe - December 1, 2015, 9:29 am

KFC Watermelon - December 1, 2015, 9:37 am

No Melon, trust me.

If I had access to my regular account, I would have explained everything in detail.

Sneaking around is almost killing me.

But in your other post you said you weren't killa

QuickYT - December 1, 2015, 9:42 am

Welp. I'm all clear. I don't rat, have a rat, have a crypter, never used one, never had anything to do with hacking of that sort. Hope everybody stays safe out there. I'm pretty sure Cryptex isn't gonna be the only bh service to get hit on HF. I'm pretty sure the FEDs are getting information off of HF right as we speak.

Funtage - December 1, 2015, 9:44 am

For attention, I would seek lounge, not this section.

Believe what you want to.

I know who this user is not but I don't know who it is

Aint Giving Up - December 1, 2015, 9:46 am

Couldn't you just go on your main with your proxy

Raymond Reddington - December 1, 2015, 9:49 am

This is getting sick now. Making jokes on a member in real trouble.

KFC Watermelon - December 1, 2015, 9:59 am

From the previous thread, OP claimed Cryptex customers were safe:

Quote:I will be out for some days and I won't be able to come up here and clear my name. All my

customers are safe and they do not need to worry about any kind of incoming raid

In addition, in the previous thread, OP claimed NOT to be Killamuvz, but a friend:

Quote:I do not have access to Internet and I asked one of my friends to make this thread for the community.

Quote:I answered every question of their's with utmost accuracy and honesty and they are gonna give me another chance as I wasn't allowed into BH "directly".

They're just going to give him another chance, according to his previous thread...He said this right after saying he was on bail. Wow.

OP is a troll and nothing more.

Vouch for this it's clear really. Nothing is gonna happen to Killa guy was sound and was not involved in any illegal activities. Stop the hype and grow up.

Just here to post this thread is complete rubbish. Do not trust any announcements unless it comes from my main account (once I can access it).
