Your prices are bad indeed, the price should be higher than the amount of pics and videos, always.
Don't lowball.

I sell 15 pics and 3 videos for \$40.

I wish I would get more into ewhoring, seems like easy money, but just doesnt seem morally correct to me.

If you think about what the guys would do then you wouldn't care about morals anymore..
I am like you, I don't do things that are morally wrong, but in this scenario, there's nothing wrong with it.

I sell 15 pics and 3 videos for \$40.
15 pics and 3 videos for 40\$ is an awful price.

I can sell one video at this price. Also, when you get a regular customer, always increase the price with him because he'll eventually buy it.

Stop lowballing guys.

At this point what you say is:

"Tell me how much you can spend and I'll tell you what you can get for that price". Like this you know how much they can spend and lower your price a little bit just for this one customer.
