The steam user and a friend are scamming people out of expensive items. They scammed me out of a 300 dollar item. [steamcommunity.com/id/ItsmeBEnNegotiaating/](#)

Ok And ? , is there possible to rat them somehow ?

SnowWolf - December 2, 2015, 1:38 pm

I was thinking about it but my thought is how would I get them to download something from me. Unless I could implement it into an item during a trade.

And to be fair the and? part is I am mad at the moment. And I am wanting payback / justice to two people whom are trying to steal.
