This is about a partnership with this member Gucci?.

<https://hackforums.net/member.php?action=profile&uid=1870829>

Its done in pms in hf.

The partnership is 50/50 split, I put in US\$100.

I didnt receive a single cent from it, its been months.

This deal dispute will remain here forever, or I get my money back.

RaiderNation - December 2, 2015, 5:26 pm

Damn dude I am sorry to hear that, did you have access to anything?

DuguWudi - December 2, 2015, 5:37 pm

Nope, he didnt give me any access, and I'm not the only one getting scammed in this partnership. There's another deal dispute regarding this partnership from another member here months ago.

Found the other member deal dispute below.

An update.

<https://hackforums.net/showthread.php?tid=4950925>

The thread above was the one that started all the stuff about partnership about the site <http://AudemarStone.com>.

And now, Gucci? going to sell the site telling everyone the site made 3k plus per month on this thread(in thread title) below.

<https://hackforums.net/showthread.php?tid=5200551>

And the funny thing is Gucci? said he earn 2.3k a month in a post in the above thread.

And here's a screenshot of that thread incase he remove/change the info/etc.

Until now I never receive a single cent of my partnership investment money back or even the partnership earning from that site.
