Thread: [Very Highly Vouched | Over \\$5,000 Profit | Sports Betting Advice](#)

r3tsquad - December 2, 2015, 7:28 pm

Sports I give advice for:

NBA

NFL

I currently have 3 groups that I run, the first 2 are full and the third still has spots available. All groups get the same tips and attention.

(Old closed thread for previous groups: <https://hackforums.net/showthread.php?tid=5012873>)

I have been placing bets on baseball and football for about the past 2-3 weeks started with \$700 and turned that into over \$2500. It is the perfect time to join for baseball right now considering the playoffs have just started so that means great odds per team. I will give my personal bet for the event and how much I will be putting down. I will also give tips on any games you personally ask me about if I did not get to them. I will give you the bets and why I chose what I chose so you guys feel more comfortable.

I am such a noob at sports, but r3t answered some of my starting questions to get me familiar with betting and he helped everyone make great profit. His NFL picks are VERY accurate, and I only lost once with one of his picks, which is not bad considering I have made bank with betting on all the other games.

The skype group is pretty lively. Hopefully the NBA season will be just as profitable as NFL!

R3 is the man, the tips come with a good explanation of why, so even if you are like me and have no idea whats going on you can start to understand how it all works and why you should bet! For example the bet above was a fairly "risky" bet so I didn't bet much on it but still a nice little payout (Turns out they wiped the floor with the opposition)

Awesome.

If you can find a way to prevent scamming on either sides, you could always offer a service where you provide bets and ask for a % of wins (that way you're effectively using someone else's money).

Or he can just bet himself and let others bet. There's no need to do what you said above.

All games carry a risk, and of course he can't get 100% of games correct (even though it feels as if he's very close). So big vouch for r3t, he's done great so far, and I hope he sticks around for a while longer!

+1 for R3T, this betting group is the best I've seen so far. This is the Review of R3T's Betting

Service (Unbiased) after being the member for last 5 days.

Review:

I would definitely vouch for R3T, I've started betting just before a week, i'm a complete noob... i had no idea about betting as well as NBA/NFL, so my only hope was R3T. I just followed his orders blindly, won most of the matches so far.

Will I win all the Bets based on R3T's predictions??

Never....Betting is not a 100% guaranteed event, these are just predictions based on previous results and analysis...So don't expect to win every game, its never gonna happen... if your winning rate is more than 60%, then its pretty good in my opinion. R3T's winning percentage is easily more than 75%. He gives the best predictions, I've learnt a lot in last 5 days. Now improving myself.

Betting Region Restrictions:

The best part is, you can bet from anywhere in the world, no restrictions. (Always check whether your country have any restrictions, most don't)

How Easy is it to Understand R3T's bet predictions???

R3T provides just the betting options, in simple, easy to understand language. So Even if you have 0% knowledge about betting, you'll still able to follow R3T's orders...its so easy to follow. There are also amazing people on R3T's skype group, who can help the noobs initially.

Example of R3T's BET Predictions:

he gives bet's risk level in LOW/MEDIUM/MEDIUM-HIGH/HIGH scale... So I'm sure everyone will know the risk level before they bet, you can bet in your comfort zone and can skip the HIGH RISK bets.

Finally, would you recommend R3T's betting service to all??

I would definitely recommend R3T's Betting Group to everyone. This review is unbiased and a honest feedback from me...Good luck..:)

Does the 40\$ BTC go toward our first bet? Or must we invest in addition to the 40?

Nope \$40 goes for your service ... i.e. the fee to enter the skype group...

so this doesn't go towards your first bet...!!!

if you are lucky, you can earn back the investment within few minutes/hours/days....:)

I've been in all the groups pretty much since the start (must have been a few months now), and I would like to add a few things.

Don't join if you think this is some kind of magical "double your money service". It's betting, which means there is always a risk. And the less risk, the worse the odds (so there's no point betting if you will bet \$100 and win \$101 back). If you manage your money well, you can easily make money from r3t's service. Just bet something like 10% of the amount of money you wish to use to bet with. Don't do stupid bets and all-in on the first bet you get.

I've been posting my winnings, so I might as well post last night's loss too. Nothing to hide.
