Lesson Learned: Don't share a computer with anyone.

If your able to get your hands on 8 BTC there's no reason why you can't have your own laptop.

Damn OP sorry for your loss.. I'd ban your brother access of your computer.

Bluffer - December 2, 2015, 8:52 pm

Hmm why didn't you have 2FA enabled on your BTC wallet? Gotta be extra secure especially while sharing a computer!
