Thread: [Police scanners on PC?](#)

Danked - December 4, 2015, 3:27 pm

Not too sure in what category to put this question, so here i go.

I'm looking for a police scanner for my town. It's a very small town, i know the police frequency but can't find any app or program that will provide me the radio.

Anyone can help?

I have a reality small town too, try this site out <https://www.broadcastify.com/listen/>. Search for your zip code

Nope, they have the bigger towns around me, but no sign of mine. Thanks for trying though!
