Thread: [HF Live - HackForums Community Radio Station \[FUN\]\[PRIZES\] - Recruitment](#)

SIM-1472133 - December 4, 2015, 6:37 pm

I am the new operational manager managing the recruitment with myself. I am getting ready for a dedicated long term commitment to providing a HF radio in 2016.

WARNING* Make sure you can commit to the project. Do not waste my time.

So after a few months of planning and development. [HF Live Radio](#) is LIVE!

[HFLive.Net](#)

HF Live is a community radio station for HackForums streaming 24/7!

Thanks to the help of cloud automation. This will be run much like a real radio station, in the form of live shows and professional branding.

The launch will be in the next coming week or so. Which is why I am starting to hire the first members of the radio team!

No experience needed, all tools and training provided! (Quick 5 minute video tutorial and handbook).

The scale of HF Live is going to be huge, you will gain great experience and confidence speaking in-front of medium-large audiences.

Every month, the most voted for Radio Host will receive a prize. (To be determined or most likely monitory value.)

Requirements:

- Working microphone
- Music collection
- 3 shows per week minimum (We have a timetable that works in 1 hour slots, 1 show = 1 slot.)
- Skype
- Windows

Post below the following:

Code Age:

Why should HF Live hire you?

Do you have any experience with SAM Broadcaster or internet radio?

What genre or type of show would you like to do? (Dance, Hip Hop, Breakfast show, etc...)

Do/Can you meet all the requirements?

I plan to hire roughly 20-30 radio team members.

We will be hiring news reporters soon. For non-hackforums news. Standby for more details on HF Live's launch!

New recruitment thread for a new team.

I recruited to hastily last time in a bid to start rolling quickly. I hired quantity not quality. In result alot of the staff stopped doing their job or didn't even start at all.

Thus we are relaunching with a clean team. Please ensure you meet all criteria for this project.

I still own, manage and oversee the running of this project.

I have appointed ChromeProducts as my Operational Manager to help me manage recruitment and the team itself.

We plan to solidly commit this for the long term this time. We had great feedback from the community and its a shame the previous team failed to maintain themselves.

So CHEERS to 2016 and HF Live!

Why should HF Live hire you?: I've got decent experience with online radio and shit primarily with the software "RadioDJ" as cracked SAM is hard to find, not so much hosting with voice but I do have a Blue Yeti microphone with pop filter so I can provide HQ sound.

Do you have any experience with SAM Broadcaster or internet radio? I do, I ran a couple of my own for some forums I used to own as well as a habbo retro. I have used SAM and have experience in it but I rather use RadioDJ. I also have a big trap remix collection.

What genre or type of show would you like to do? (Dance, Hip Hop, Breakfast show, etc...) Electronic (Trap) Remixes

Do/Can you meet all the requirements? Yes!

I don't have time to dedicate to this, but whenever you guys get up and going good just let me know and we can see about using the radio with Titans stuff as well. Sponsoring each other and whatnot. Events that require the radio to win prizes, radio to announce things, etc.

Dan Smith - December 6, 2015, 11:50 pm

Glad to see this getting relaunched. Do I need to reapply if I want in again?

From all the DJ's hired last time, I was one of the four that actually did shows lol.

Do you have any experience with SAM Broadcaster or internet radio? Not at all, but I'm sure I can learn. I've always wanted to do an Internet Radio but I've always been too lazy and I didn't think it was going to get big.

Good luck however, everyone.

Keep the applications rolling guys!

Dorrance - December 17, 2015, 9:46 pm

Well I do meet all the requirements, but the 24/7 streaming shit I would not be eligible all the time. Well I have a lot of hood music, but I am a comedian. So with the comedian part if your looking for some talk host & comedians let me know.

GrandpaSherman - December 17, 2015, 9:53 pm

I feel like voice recording should almost be necessary so we don't get stuck with someone that sounds meh.

SIM-1472133 - December 18, 2015, 12:07 am

Please keep this thread strictly applications only, bullshit talk will not be tolerated.
