SamHunt - December 5, 2015, 10:48 pm

not posing to be anyone, i am 56, but what is the point in meeting someone when we was suppose to meet up in "person" at the "post office" then he changes his story and said he was just gonna ID me from the "Crowd" why waste my gas for someone to just to try to ID me in a airport out of who knows how many people, i sit at a rest area for 9+ hours waiting thinking we was going to meet up in person and have a drink, then at the last min he i guess you could say "chickened out" sorry if you ask me he just did this to gain his rep above 1000+ and rep fuck me when i was at 22 at only 55 posts on site, but back to the moral of the story i sit at a rest area outside KS City thinking we was going to meetup, seein that i am a truck driver, i had a delivery in flagstaff NM the next day i could of already been half way to my drop but this crowd ass said we was gonna meet in person so i sit around just to shut him up until he decided to change his plans and just ID me from the crowd i mean comon, this was all a cop out on his part to get more rep but good evening HF

You're nothing but full of bullshit, you didn't even plan to meet up with him, because you aren't who you say you are. You just needed to find some reason on why you didn't want to meet-up after he flew all the way out there to meet you.

I doubt OP is who soup... But it is against the rules to dox another hackforums member:

1. Members are not allowed to engage in threatening behavior toward other members. This includes flaming. Also threats to steal accounts, dox, or swat. This includes any on-site material such as posts, PMS, or profiles.

Technically OP isn't Ron Webb so I didn't dox a hackforums member.

anyways as I said I will take my punishment but it's better than Ron Webb getting flamed and caught out for something a close friend / relative had done like CP on the internet.

Funny how he would have had more then one message, I sent "Ron Webb" a message also about how some random person is using his pictures on an online forums, etc. So he just confirmed he is lying, as he couldn't even take a full picture of the whole account, plus how it only had one message. ???

Well done.

LOL because I'm well known for starting drama on the forums right?

You're a piece of shit if you're putting your stupid mindset before the communities safety. You have absolutely no backing to what you're saying and only making false accusations.

I honestly wouldn't doubt that he is your multi, you're the only one that's getting upset over this.

Alright guys - we shouldn't have bothered the OP to start with till he started talking shit.

I take full responsibility for my actions and know it was wrong to do what we did - but that old guy was actually pretty cool - he had mint motorbikes and hair that pantene would endorse.

It wasn't wrong for what we did, it was the right thing to do. These people should know that some random guy is using their pictures on the Internet pretending to be them.

You say I have a stupid mindset yet you want to meet a stranger because he pretended to be a grandpa on a forum.

The only person upset is you, you are the one who made the community alert crying about someone lying lmao.

I made a community alert because this user is sketchy and was more than likely going to scam.

It's not him claiming he was someone he wasn't that was sketchy. I'm not going to keep typing it out again read your PM or read my post. I was right to make a community alert against this user as he turned out to be sketchy.

They should definitely look into your account sam, the more you talk the more I'm thinking you're a multi

I agree that SamHunt was a very sketchy user, and this goes past pretending to be someone else on the Internet. Reputation on hackforums means everything you could say when it comes to making deals(such as selling/trading/etc). So if he got enough reputation, he could easily scam a lot of users, now I don't know if that was his plan or not, I'm just making a statement.

It's odd how -sam- is defending this user even after he got caught. There is absolutely no logic in that.

what a high quality user

This thread should never have happened and it got taken too far.

I have found who he is and to be fair his girl is pretty hot - he must have hacked her and is black mailing her but it's k i have his emails and doing some recon, I will save her too.

Let's just end this now - can anyone close this or only the OP/Mod?

I read the other thread and I can vouch that OP did implied that he will shoot. He actually overdid it on purpose, just to get the kind of reaction WhoSoup gave.

Just to make this clear, I am not taking WhoSoup's side. You might think that I am friends with him or anything. I only exchanged currency with him once. That's it.

This is the reason why facetime exists.... hard to fake compared to skype and pictures of yourself holding a piece of paper (since that can also be photoshopped).

Lol. Instant scammer alert.

But seriously, who doesn't have a cam these days? All laptops now have built-in webcams.

This isn't related to any kind of deal dispute or anything, it just OP was acting like some guy, when really all he did was find some truckers facebook profile, where he stole his pictures and he kept acting like he was that guy. He went stupid and gave out the guys real name saying that was his name, and that's when someone doxed him, and got the real guy facebook page.

But yeah I agree, but he kept saying how he had some laptop from 2001. ?

Look at the link he sent me and then look at this kids profile pic

He also fits the original DOB on his HF profile he had set

I'm pretty sure you're right. I recently got the chance to chat with Heather which is the daughter of Ron, the guy OP is pretending to be. He has been lying through the roof, and has made the real Ron look pretty bad. Almost every story OP told was a lie, such as fighting in the gulf war, lying about the picture where he said it was his daughter and son, when it was really his daughter and husband, how he told everyone his granddaughter had twins, the statement he made about how he only completed the 8th grade.. The real Ron completed high school, and went to college.

Me and Heather chatted for about an hour, and during that time I sent her a few screen shots of OP linking pictures of her dad, and even some of her which I assume he got from her facebook page. I also linked the threads where all of this went down, and she said she'll sign up tomorrow to read through all of it. What makes this even weirder and creepy is that if it really is Stephen, that is her best friends husband which she has known for years. She told me her and her husband are going to have a little chat with Stephen, along with telling her dad what's going on.

I will post some screen shots later of the chat between us, as I'm currently on my iPad. This is just completely messed up.
