Thread: [\[TUTORIAL\] Account Cracking Guide \[Newbies or Advanced\] \[DL Links\]](#)

XboxJuan - December 6, 2015, 9:22 am

DON'T BE A LEACHER, LEAVE A REPLY I SPENT SOME OF MY TIME TO MAKE THINGS EASIER FOR YOU JUST TAKE THE 10 SECONDS TO REPLY.

GETTING A COMBOLIST.

Hello Mates, So to start off you are going to want to download a program named "SQLi Dumper".

Link: [SQLi Dumper](#)

Decryption Key: [Decryption Key](#)

VT: [VirusTotal](#)

(Before you go all "OMFG VT SAYS ITS A VIRUS ON 3 RESULTS SO IT MUST BE" Please learn what a False Positive is)

Now that you have SQLi Dumper Please Open it you should see the following screen:

Spoiler [\(Click to View\)](#)

Now where that big Text Box is in the middle is where you need to paste your Dork's you want to scan for.

[Basic idea of What A Dork is Here.](#)

[Here is some Free Dork's.](#)

Now you want to click on start scanner (Feel free to adjust the threads depending on your Internet and PC power)

Spoiler [\(Click to View\)](#)

Then when it finishes scanning you should get some "Exploitables" You are going to want to click on "Start Exploiter"

Spoiler [\(Click to View\)](#)

Alright now that you have injectibles you are going to want to right click on a Injectable URL and click on "Go To Dumper"

It should now show the Databases for that website

Click on the Database and click on "Get Tables"

Now find a Table that looks like it might have Login info Like "Members" or "Users" etc etc then click on it and click "Get Columns" and if the Columns are named something along the lines of "Email" and then another column named "pass" you are in luck you are going to want to check both of those Columns (Usernames will work for some sites also but it's usually better to have Email:Pass) Then click on "Dump Data".

Now save that Information that is going to be What we call a "Combolist" it is what we are going to run to check if they have a account on the sites we are going to be cracking.

CRACKING.

So now you are going to need to download 3 things before we start cracking

SentryMBA: [SentryMBA Multi Patched](#)

Password: [Password](#)
VT: [VirusTotal](#)

Proxies (I am not going to show how to scape proxys in this Tut but I will link some I have previously scraped)

Proxys: [Proxies](#)
Decryption Key: [Decryption Key](#)

Now you need a SentryMBA Config I will link some of my Configs:
PM Me if you need a config, I will not be posting those on the thread

Alright so now load your config into SentryMBA, Load your Proxys then load the config you exploited earlier and start cracking (I recommend to use 100 Bots as a default UNLESS IT IS A PROXYLESS CONFIG THEN USE 7) That is it for now, I plan to go more into detail but to be honest I am tired of typing for right now.

TheX182 - December 6, 2015, 9:54 am
Nice post! Keep it up! :)

It's a bruteforcer/account cracker.

Nice tutorial OP!

badboy3 - December 7, 2015, 6:22 pm

Great work! Keep it up
/msgtooshort

XboxJuan - December 7, 2015, 6:48 pm

Thanks for poating everyone!

aion86 - December 7, 2015, 6:55 pm

Nice tut, bro. I'll try it. Thanks for your sharing :)

Abudujana - December 8, 2015, 3:30 pm

Great tutorial, I would like to pm you when I am out of my noobperiod :D
Can you PM some configs? For example PSN

XboxJuan - December 9, 2015, 5:08 pm

Bumping this up guys. ?

fjohn01 - December 9, 2015, 11:32 pm

nice tutorial.. keep it up bro. thanks

God.Anons - December 10, 2015, 2:36 am

Nice job! Thank you so much.

XboxJuan - December 10, 2015, 7:39 am

Bumpinf this up guys.?

Vu47K - December 10, 2015, 7:54 am

Thanks for this tutorial
keep it up

mxzh - December 10, 2015, 2:46 pm

Very nice, thanks for writing this up, going to try this at some point.

OversizedPotato - December 11, 2015, 5:50 am

Nice tutorial, keep it up. ?

xTerN. - December 11, 2015, 7:20 am

Thanks for share. ?

acarN - January 3, 2016, 12:50 am

Thanks for sharing! Much appreciated. :D

dineshrajaa - January 3, 2016, 2:42 am

very nice, thanx for sharing bro

FluxHax - January 3, 2016, 1:52 pm

Thank you for the tutorial. Like headdot says, very direct and concise.

badboy3 - January 4, 2016, 2:26 am

Hey this will help some people! Keep it up mate!

reriel - January 4, 2016, 3:00 am

thank you, interesting, i'll try them soon

Slipper - January 4, 2016, 4:25 am

Very HQ tutorial nice work.

Neptuna - January 4, 2016, 5:56 am

thanks you for this nice post

hasandx - January 4, 2016, 11:59 am

thanks for this detailed post.

huztleguy - January 4, 2016, 9:38 pm

cool and nice tutorial post you share bro

ilias13 - January 5, 2016, 7:04 am

thk you good tut and good job

Le?git - January 5, 2016, 12:03 pm

Great, well written tutorial.

?Enlightened - January 6, 2016, 8:10 am

I agree, just had a read though it's a shame that this users account is closed.

Thanks OP, if you end up seeing this ?

.iniFile - January 17, 2016, 6:29 am

I really want to try this out it looks neat

okean123 - January 19, 2016, 9:21 am

Thank you nice tutorial! Keep making tutorials!

SIM-2988035 - January 19, 2016, 11:08 am

Sweet !! Thanks for this tutorial dude <3

optyczny - January 19, 2016, 12:17 pm

SentryMBA Multi Patched == Whats does it Do ??

mcifuentes - January 19, 2016, 3:49 pm

hq tutorial. thanks buddy FOR SHARE

llovejabba1 - January 20, 2016, 3:28 am

good shit man, very detailed!

Triops - January 20, 2016, 12:25 pm

Hopefully they patched the problems from the previous thread. Thanks for reuploading this

Update: It works fine now. Using the default SQL Dork list in the scanner I got 1 URL. Took nearly an hour to do it though.

Update #2: I only have one complaint about this thread. You don't give an in depth tutorial on how to use it, only saying right-click and select "Go To Dumper" doesn't help. As when we follow those exact instructions, "Go To Dumper" isn't an option for us. If you, or someone else, could make a in-depth tutorial on how to use this program, that'd be very helpful. I would if I were able to, but I don't fully understand how this program works yet.

necromanswer - January 20, 2016, 9:29 pm

Posting so i can find this later, thanks this will come in handy
