Overall 8/10

I've been ewhoring for a while and I hit a slump. So I did what any smart person would do - I went looking for a boost. And this book, while it had a lot of info that I already knew, it gave me some new ideas. I made back the cost in less than 15 minutes and if you can't do the same, you're just

lazy or you really aren't cut out for this.

I give it an 8/10 only because I already knew some of the information. But if you are just starting out in the world of ewhoring, this is the foundation that you need.

I'm currently at my phone so sorry for the short answer now.

Yes it does show you how to begin and what you need to have.

Also you will see tips and screenshots about how to recognise a time waster, convince a buyer and double dip. I can't tell you too much, but I can tell that it's no spoonfeed eBook, but eBook+ package includes support and I'm willing to answer your questions when I got a day off online work ?

Anonymous Guardian - February 25, 2016, 5:32 am

This E-Book looks great. Private method/traffic or just includes a way of talking to people?

It's more about the basics to E-Whore with Kik, including tips/screenshots and more.

It's not really a private method, but it's working!

About my traffic (today):

As you can see I got 205 New messages and I got not much time today to E-Whore, so if you want or need support, PM me and I will give you my Skype and contact you as soon as I got time!

Thank you for your interests in my eBook! ?

I also included these things:How to recognize potential buyers

How to convince potential buyers

How to filter time wasters

How to double dip someone who already bought your pictures from another E-whore

Including screenshots of conversations

Nobody in the right mind would let their method get saturated if it was making well over \$200 a day.

I smell bullshit.I don't "NEED" to get money by selling it, I share my knowledge with beginners for a fair price in exchange.

Sold for \$80 + \$5,50 + \$9,95 today, did I "NEEDED" that.. nope. Am I happy that I got it, you bet I am! ?

It's called expending your marketing or not putting all your eggs in one basket.. And who talks about saturated?
