I do not want vouch copy. I will pay upfront btc escrow.

If this method work as described, i will add it as Legit. If it does not, i will add it as scam.

And i suggest you dont allow voucher because they will LEAK your hard earned money. You will not be able to make sales.

Let me know.
Cheers

I advise you not to deal with this member, he's posting the same shit on the past 4 products and is likely just looking for free stuff.

On topic: Good luck with sales, looks like a great product and I may have to purchase it soon ?
GLWS once again.

Big vouch for Tut. HQ user and makes amazing products. I have purchased this dropper and have found it simple to use and add multiple files. Biggest file I have dropped was 57mb. And launched without errors.
