So I got a vouch copy (Only one script, Twitter follows)
It's a pretty basic script, but it works really really well, has auto login for you, so you can run it overnight (Waiting to see how it actually deals with the "You've been idle, please login again") But overall, I think it's a pretty good deal, considering how many scripts you get! I will update this again later on, after my script has been running for about an hour or so!

So far so good! If you got \$5 to spare, and wanna rack up some points, don't hesitate to buy!
