Thread: [Hay Day business \(12 people needed\)](#)

drgero - December 9, 2015, 5:59 pm

Hello everyone,

First sorry, this is my first time on the forum, that's why i don't have any post or reputation, btw, that's why i couldn't post in the Marketplace

So i'm making a huge business of selling Hay Day items for real money (pretty much same as igxmart but way better) i'm really smart and i spent ages on getting everything planned. So don't worry

Basically, i need 12 English speakers (be able to communicate) and smart people to be co-leaders of the company, because you will later hire and lead people on the internet, exactly as i did for you...But that will be after we get money for investment. You will first start by using and get familiar to the procedure of the bot (Basically it can make any product over and over as well as stocking...) i need you to control multiple farms to get products and tools stocked, so we can sell them for real money

If you already play the game, you guys are the lucky ones, because you will be able to hack it as well as getting very well paid, if not, i will show you everything you need to know

Each one of you will always get 4% of the business budget each end of the month, but wait don't misunderstand it... 4% is a lot and your salary increases as the company grows For example, lets calculate, if we start by having 10000\$ in the first month, each one of you will get 400\$

and if we get 200k \$, which i think will be possible within few months, maybe less... you'll get 8000\$. Cool, right?

If you think we will not get that much money from this, i suggest you go check how much does Supercell make from in-app purchases only, in 2013, they were making 100k \$ per hour, imagine now lol. People will for sure be interested to buy from someone that sells cheaper + I really think that we can make millions easily, according to our 100s thousands tools and products made everyday...

Oh and its totally legal, only thing we risk is ban and we'll be able to deal with it

Ok here's how it works, i will select first 12 people then we'll get started. If i think someone's not respecting the rules or doesn't deserve the place, someone else will replace him.

Important thing, you need to have 2 hours free for business everyday. We will choose time to work all together depending on each one's preference.

Oh and u gotta have a laptop or computer running 24/7 in order for this to work.

We're starting probably tomorrow, as soon as 12 people or more are reunited and we'll have group discussion on Skype.. then you'll be able to ask any question.. so plz don't pm me asking multiple questions about the business, i will show everyone at once as well as answering all your questions.

Already selected 4 people, only 8 are left now!

Good luck for everyone

Gc, we will invest at the same time of working. first month 10 000 \$ guaranteed and the company will grow a lot with few months.

Check igxmart if u wanna have an idea

Squidward - December 9, 2015, 6:44 pm

my email can barely keep the indian scammers away, now they're even on hf... ?

drgero - December 9, 2015, 6:44 pm

Green crack, i don't need any investment at the start, we're gonna use the bot and promote ourself.. we're gonna hire professional promoters later, make the website... I have everything planned

+ one my friends make by himself more than 2000\$ in the first month with only 100 farms, it takes 1h to make them, he didn't have any website or even a fb page

Scymo, first thank you for your interest to join the company.

We will start as soon as 12 people reunited, add me on skype plz so we can talk

now 7 left, without counting u for sure

More than 30 people said they are interested but i only confirmed with 5
