Thread: [3 BTC, 4 Nights! Bustabit!](#)

Doodlegod - December 9, 2015, 6:56 pm

Yo guys! I recently discovered all of the Bustabit hype, and started out with a script.

Well, as most of you know, it ended shit! I learned some decent manual betting tricks, and well, I'm making about a BTC a day. Would have (MAYBE) made one yesterday, though I had a school project. Anyway, it takes me a few hours to do this, depending on how much I start with.

My most made was 2 nights ago when I turned 100k bits into the million. Was a dope night and I was insanely lucky! Today, I turned about 300k into it, so I'm still pretty happy.

Anyway, if anyone needs help with Bustabit, post below (No leechers please, positive reputation only!) let me know! I'll try my best, though it is 99% luck.

Proof:

[Spoiler]

Note: I keep a few hundred thousand in when withdrawing so I don't need to deposit and wait a while for the next day, that's why there \$100~ missing from each deposit!

[Spoiler]

Good luck, make sure to stay patient while gambling! ?

So lucky I can't even win a girl that likes me and the odds are in my favor. The odds aren't in anyone's favor and you still win. FML

Hey man nice earnings right there. I've only tried this site with 10k bits and lost them all lololol. If you

can offer me some advice it would be appreciated ;)

Bucs - December 10, 2015, 2:17 pm

Wouldn't you say the best thing to do is just keep betting 1k bits and wait for that 600x multiplier that comes once in a while?

??ZèP* - December 10, 2015, 2:18 pm

I have been playing and have lost about 50k bits. Might try again but any suggestions to actually like win?

It seems like you should ride it until 3x then cash out and bet medium bets, like maybe 5k bits.

Shorta - December 10, 2015, 2:36 pm

I would love to get some help from you :)!

Hey mate im intrested in your method.

Thanks in advance!

VRUMM - December 11, 2015, 3:28 am

It's gambling don't forget it. Sites don't just send you free bitcoins. You will lose.

Paladin - December 13, 2015, 12:35 pm

I hate this game, i thought i found a good method, Made half BTC then loose it all.

20 red streaks in last 24 games.

I know this seems like I'm wearing a tinfoil hat but why wouldn't the coder just have it red streak every time it got close to losing profit...

BoyInWhite - December 13, 2015, 8:05 pm

I would definitely appreciate any help
I have a negative net profit on BaB

And then purposefully allow outliers like OP to always profit, and in turn they tell others of their huge successes and make more people join and lose money.

Watching the game without betting it seems quite random, but I'm interested in how often red streaks come around when someone puts more bits into the pot. :d

mural - December 13, 2015, 8:16 pm

I would like doing this but I have no BTC at all.

Congrats OP.

Codm4n76 - December 14, 2015, 7:08 am

I might give this site a try, never been lucky gambling from past experiences.

Ryan loses money most of the time. Profit comes when people keep betting and lose their winnings like OP lol.

SailorMoon - December 14, 2015, 4:16 pm

You are so lucky. I'm awful with gambling. Keep up the good work and profit.

The creator? If he lost money most of the time it wouldn't be online. I'm not asking if it's profitable. I'm asking if the pot increases does the multiplier tend to always bust early. I've been watching the 10x+ and no one has bet 10k or more bits and cashed out....

Tyranus. - December 14, 2015, 6:50 pm

Mate you think you could help me? I just started bustabit and I suck lmao
