Thread: [\[VIDEO\] R8 Revolver Ace - Plus extra clip at end.](#)

Toscan - December 11, 2015, 6:23 am

After the R8 Revolver was released I played my first MM game with it. I also threw in a random 4 piece on catwalk at the end with the AWP.

Decent man. That AWP clip and the end was sick!

Mac Marvin - December 11, 2015, 6:29 am

You should cut to the action almost immediately and record with `cl_draw_only_deathnotices 1` and `shiz`. The frags were good, the clip itself, not so much

Gem - December 11, 2015, 6:29 am

fix revolvo

i hate my life

Thanks man ? I have much more AWP clips but saving for a frag video. Just takes forever to get me happy with a edit haha

Yeah I just wanted to show the people the x ray view so they seen them wrapping around arch side.
If I ever make a real edit I will use the deathnotice command for sure!

They werent even walking though, if they were walking id believe it. But you know for a fact he could of just heard them blatantly. If they were quiet id say the samething. But no. I usaully dont say much on these highlight threads because its a hacking forum and im sure someone who posts clips here probably closet hacks. Who knows :P good clip none the less if its legit.

Toscan - December 13, 2015, 9:11 am

..... How is this remotely hacking? I'm playing B on inferno. My team calls them wrapping from arch. Which means they are rotating from arch way to B Site. So I meet them at the hiding spot which is common. I proceed to kill them with the R8? I don't know what ranks you guys play at. But really?

hejsh - December 13, 2015, 10:01 am

Great video mate, well done!

Thanks :p It was quite easy to use it tbh.. Left click for far away and right click from medium range really lol

peterpanus - December 14, 2015, 9:38 am

Good job, the double was sick!

ShowYerTits - December 14, 2015, 9:56 am

Way too op the R8. Hate when they fuck up the game with a boosted weapon ._. Nice clip tho mate.

limitlesskr - December 14, 2015, 10:14 am

the game was super messed up for a couple days when this patch first came out.

there was a smoke glitch where if you threw a smoke and alt tabbed, the smoke would disappear on your screen.

everyone was just smoke glitching and 1 shot killing people through it with the r8.

well, was fun while it lasted ;p

Toscan - December 14, 2015, 3:45 pm

Thanks guys :) and Yes the smoke glitch was pretty crazy and the R8 was super powerful on the

release. Thank god it all got fixed.
