Thread: [ewhore intermediate tips! kinda turned into a guide also <3](#)

SATANxxxxx - December 12, 2015, 12:36 am

I haven't seen a thread discussing this and I wished I had them back when I started. So I'm sharing them here.

1. First off, I have found there is 2 main methods to ewhore and get money. The first one is talking to them for 4 or 5 messages then offering to sell to them. The other is the straightforward asking if they wanna buy or saying your selling. You'll need to find out which of these 2 works better for you.

2. Second, if you suspect they are going to ask if your real or not offer to Photoshop their name on your ewhore before they can ask to do a hand signal. Once they made up their mind how they want proof they wont go any other way and will question why you wont do it.

3. Third, make sure your prices are right. If they are too low you will seem like a scammer and fake and also ruin it for others. Always ask for higher and if you want say its negotiable. High buyers will buy high and poor guys will say its too much or say they cant afford it. This is when you offer to negotiate and ask their budget. "If you start off with a higher price, you're more likely to get more money, because then you have something you can go a little more down with, and also look at the big picture: if 2% of ewhores started doing this, that means a large pool of customers will run through this new tactic. That means, in a couple months, customers will be expecting to pay us more, and then the new "low" range we complain about will be \$5 - \$10 higher on average. This is a win win for all of us! And you gain better business sense with heightened sales skills. " -- WISE WORDS OF TOXY

4. Fourth, to avoid Paypal charge backs have them always send it as friends and family. If they send it as business refund them and say send it as friends and family. Its not worth the risk.

5. Fifth, always keep your customers happy, even if you cant provide what they want, say they ask for 50 pics and you only have 10 nudes (like the pack I'm using currently) then send them a extra video as a bonus and say you need to take more pics sometime and forgot how little you had so you sent a video to make it up. If they ask for a video you do not have them provide them with 2 you do have. a lot of times they will be happy and sometimes not even mention it.

6. Sixth, take a screenshot of the part where a customer basically says you sold to him and he got the product, later when customers say they think you might scam them offer to send them previous customer chat logs. Then send them the screenshots. Here is a example <https://imgur.com/ASbItYN>

7. Seven, invest in paid packs once youve made enough money from ewhoring to buy it. Its well worth it, or you can make your own. Either way its unsaturated and you can keep using it for long periods of time.

8. Eight, do not scam or double dip your customers. Milk them instead. When you scam you not only limit others from profit you also limit yourself from profit. When you do this they immediately figure it out whether they tell you or not and will not buy again. would you rather have 100\$ right now or 600 over a month? To milk them either wait for them to message you again or message them in a day or so. They will want to buy more if you treat them right. Once they buy they will buy again. Write their name down and go back to them on other accounts if you need to and milk more and

more. One guy would only pay in increments of 10 dollars so I hit him with 2 accounts and milked him back and forth.

9. Ninth do not block nude pics and Indians. Some of my best customers have been both of those. Give everyone a chance and you will be rewarded I promise you. When people message you asking to trade always tell them your selling, 9/10 times they will ask how much and be interested in buying. If they try to get free pics say "buy first" if they don't take the hint ignore them and pay attention to other customers. they might change their mind within a few minutes.

And finally to wrap it up try your own methods find the best traffic sites for you learn from what you see and experience, its well worth it. I wouldn't make how much I make today if I hadn't learned on my own. Trial and error is a huge part of ewhoring.

Here is only some of my profits if I didn't make any money on a day its because I didn't ewhore on that day. i average 100\$ a day and do very well. I am not trying to brag but I want to prove I know what I'm talking about and the reason why I mentor people. <https://imgur.com/a/90BMD>

Good luck to all and make bank!?

Didn't had the time to go through all the points. But judging from your previous thread....I am sure this one is as HQ as your previous thread. Posting here just to thank you for contributing and for helping out new guys.

EDIT: I'd request you to add a point about why people shouldn't DIP and SCAM their customers.

That's a horrible tip. You are not a e-whorer if you can't make Indians Pay.

nope do not do this. indians might rarely pay but they have been getting noticeably more desperate lately and have sold to a few. and one of my best customers has had a dick as his profile pic. i sell to people who want to trade more than anyone else. in fact im gonna add another tip about this.

Mention that if you start off with a higher price, you're more likely to get more money, because then you have something you can go a little more down with, and also look at the big picture: if 2% of ewhores started doing this, that means a large pool of customers will run through this new tactic. That means, in a couple months, customers will be expecting to pay us more, and then the new "low" range we complain about will be \$5 - \$10 higher on average. This is a win win for all of us! And you gain better business sense with heightened sales skills.

PC is a lot more convenient, I would say. I like the app pikik2 - you can type in messages and press enter to send them, and it has a built in fake camera, and themes too.
