Stating that I was purchasing Instagram Mentions

The user [Tomorrowland](#) messaged me on Skype saying he will sell me Instagram mentions

Proof this is the users Skype:

Spoiler [\(Click to View\)](#)

So, I private message him on HF to confirm his Skype name, and he confirms it so he's telling me he will give me 5,000 mentions for \$10 and I told him we will do \$1 for 500 first

So, I sent him \$0.99 instead of \$1 and BOOM! I get told this:

And then he blocks me on Skype

yes, I didn't read his rep which I should have but I thought that someone wouldn't be so low to scam \$1 lol

My eyes hurts to see such scam reports. IDK why people don't practice caution while making deals. The guy in question literally has numerous scam reports on his name, yet people fall prey to him. May god bless all the victims.
