Thread: [Made \\$107 Yesterday - WhiteHat](#)

brTT PaiNN - December 13, 2015, 2:28 am

Hello HF just wanna brag around a little, i made \$107.69 it is CPA on network CPAGrip using method i implemented and tested couple of times, now im working to scale it up/keep it on that level.

Pic is edit a bit to show what numbers mean like view,clicks,leads... etc I can show proof over skype, teamviewer or so but i feel that its not needed, i can even shout on grip :D

Also point of this thread is that i wanna say thanks to user [boo5t](#) who helped me a lot with some expenses i had while i was testing the method. ?

Nice earnings, I never reached \$100 a day! \$52 was my best ? Are you optimizing your offers as well? I had better conversion rates after I optimized my offers per country.

I used the top 3 or 5 of highest CR% and top 3 or 5 of highest EPC, because then I would only get leads from offers that perform as well as they pay out ?

Nice earnings, I'm not exactly sure how to work CPAGrip, is it possible if you could explain how it works or share a method with me? Looking to make some cash on the PC. Thanks. :D

Thanks on heads up, it maybe has something to do with instagram, lets put it up like that. Btw ill post yesterdays earnings here:

I have developed myself a pretty nice and stable income, and i will teach the same member who invested in me, when all of others where putting me down.

thats sick mate, dont stop with that ;)

iMario - December 21, 2015, 8:44 am

Oh my god..... I miss the days I used to make that too. That was 2 years ago. It wasn't white hat. I made the decision to stop anything that is morally wrong so I stopped doing this. Never found anything white hat since tho. I wish I did :/

Anyways congratulation, I wish you the most success ever! This is one of my old niches stat: 42.91% CR and \$3.02 EPC. Not even an epic niche or anything, just perfect work and dedication. So I am pretty sure you can scale it up! Good luck ?

You have a great memory! Indeed I used to be on Filelce. If I was in your place I would have forgotten lol my memory sucks XD

Wow incredible stats! I am happy this is all WhiteHat. One of my friends yesterday told me he doesn't like WhiteHat because BlackHat/GreyHat is much easier and faster but I do think it is an evil way to make money because he's almost like stealing people basically. I was deceived by this mentality. I am glad I moved on from that. Anyways I wish you the best! I sent you a PM.
