Hi everyone!

I just think should I make a new skype spreader. I have made 2 and now i started making new version but then I realized do anyone need Skype Spreader nowadays?

I do not want to waste my time in the program , if no one does not need that program anymore?

My old spreader got those features [\(Click to View\)](#)

- Custom Massmessages,
- Custom timer for messages,
- Custom Mood for victims,
- Prevent task manager,
- Prevent registry editor,
- Custom startup,
- Download and Execute files,
- Hide downloaded file and
- Self-destruction after custom amount of mass messages.
