Thread: [Outrage File Hosting- Free File Hosting](#)

TheSocomj - December 15, 2015, 4:11 pm

I would like some feedback on my new free file hosting website.

URL: <https://outragehost.com/files/>

It would be great if you could test it out and tell me how it is :D

Thanks!

Remove this:

Remove this hidden content:

Both layout and file hosting source have not been made by you.
So I can't tell my opinion about this. :)

Also, it's possible to spam:

Spoiler [\(Click to View\)](#)

Which can lead your domain to get blacklisted by Gmail, Hotmail etc.
