It's some userscript. Idk where to get it, but yeah, it's not an official HF chat by any means lol.

Your a fucking joke. Lmaooooo

Wirt - December 15, 2015, 5:35 pm

Omniscient said before, it's a 3rd part userscript, which isn't his responsibility. Just don't use it if you

are that gullible.

Antediluvian - December 15, 2015, 5:39 pm

op you are such a baby

lol

Wirt - December 15, 2015, 5:39 pm

Like I just said, there was another thread just recently where a different person was impersonating another member on that chat thing. Omniscient didn't do anything because it's a 3rd party userscript. He didn't make it, nor does he have any control over it.

H??????a X™ - December 15, 2015, 5:39 pm

The chat thing looks weird, though I laughed at this impersonation.

Sicklo - December 15, 2015, 5:40 pm

I hope Omni closes this thread, takes out a bottle of bubblee and contemplates how moronic you are.

CRT - December 15, 2015, 5:40 pm

This kids is why you don't use a shitty shoutbox userscript !

Consider it took me 1 minute to edit my profile to Omni's. Yeah. Needs fixed.

Benjamin Cakelin - December 15, 2015, 5:42 pm

Doesn't mean it was him, it can be manipulated to redirect to any member, remember when you clicked it and it went to froggy? So yeah this is not enough proof.

If you keep breaking the posting etiquette policy you may aswell be banned...

Hexicidal - December 15, 2015, 5:44 pm

Anyone that uses that userscript needs a mental evaluation.

Don't be a cock. I'm not the one whos making stupid ass threads like this. And some of you are backing this spastic? I honesty hope you all catch down-syndrome.

Re-phrase.

Anyone who cries about someone changing there name in the code needs a mental evaluation.

Thanks. It was me though. No point in lying about it. But Omni already commented on it. Its a third-party script. Its nothing to do with the site...

Roger Waters - December 15, 2015, 5:49 pm

Looks like Omniscient isn't the only one being impersonated on there >.>

As always, you should message anyone on HF before doing a deal to verify that it's actually them. I don't use that script either and I will not be held responsible for any deals done by the person using my name on that.

No problem, if you clicked on "Omni" it automatically redirected to my profile. So people know it's not me. Nor was I trying to do any deals through it. I'm not a fucking idiot. But thanks for clearing up that I'm not going to get closed/banned for having a joke.

HE GOT BANNED, GOOD JOB GUYS

Roger Waters - December 15, 2015, 6:00 pm

He shouldn't be showing up as Omniscient on there anymore and has been banned, since the script

requires you to have access to the page in order to have your name and avatar as a member or even yourself.

SIM-888979 - December 15, 2015, 6:18 pm

better listen to the trusted member of the community aka the chat-box moderator

King of Hearts - December 15, 2015, 7:13 pm

Just a heads up, that userscript (and all userscripts for that matter) are not part of the official Hack Forums site. As such, it is considered off site and not much can be done. It has been proven in the past that members can reverse engineer the protocol for the chatbox.

If you are using the chatbox to make deals and such, DON'T.

I'm closing this for now, Omniscient might jump in.
