Thread: [A US phone number \[Send / Receive SMS \]](#)

Lambasoft - December 16, 2015, 1:06 am

Greetings

I would like a service that offers me the ability to send and receive SMS from a US phone number.

I'd pay paypal for this.

Thanks

Use Voxox, it's an app for your phone that's free.

The GRim - December 16, 2015, 1:07 am

Check this android app.

Text now

Lambasoft - December 16, 2015, 1:10 am

It's just that I understand most of them requires credit recharge, I have no problem with that, only if I could recharge using paypal ?

Text now is a free app. Try it out bro

Who Soup - December 16, 2015, 1:11 am

use textnow, you can call/text for free. They accept paypal and you can watch videos if you need more credits.

Biometric - December 16, 2015, 1:12 am

Voxox stays free for a long ass time. Pretty sure texting is unlimited and calls are \$0.10 per minute... you get \$1.00 when you sign up. You can also spoof calls to show up as any number in the recipient's caller ID but I didn't tell you that ?

Alright :)

Thanks a lot guys for your quick replies. I'm closing this
