Thread: [Locking account on Country lock question](#)

Dark Smile - December 16, 2015, 4:50 am

If I lock my account on Country lock here:

<https://hackforums.net/cclock.php>

Can I unlock it later? I mean if I go on trip outside country and want to login to Hackforum. How it works correctly?

Thank you!

(Dec 16, 2015 12:04 PM)- Sam - Wrote: [\[CITE\]](#) You cannot login your HF account if you try to login from a different country. Hence why it's called 'country lock'. If you are leaving the country you should disable it before you leave, only then can you login your account.

Exactly.

This is pretty obvious.

This is what I ask. I ask can I unlock it and then go to trip.

Thanks for answer :)
