Thread: [Jailbreaking Help! Fix Any Problems](#)

Nobilma - December 17, 2015, 7:30 pm

I've been jailbreaking since some of the first jailbreaks came out for iOS. I wanted to mention I also develop Cydia themes and tweaks for users to install on their device. If you have ANY questions about jailbreaking I am almost certain that I will know it. So, if you need some help solving a problem with jailbreaking post them here, or if you want to know something about jailbreaking regardless this is your forum!

Hey buddy, I notice you're new to the forum and I don't really want to be the mean guy right now, but there's a Help Desk sticky thread right above your thread, I'm pretty sure you can provide assistance there.

This forum is already messed up enough, I'm sure this will help people....if this forum was formed correctly
