Thread: [Advance way to upload shell tutorial-by Spirit](#)

spirited_wolf™ - December 17, 2015, 8:09 pm

So, Hello guys

I am Spirit as you all know so, today i am gonna show you 1 Advance and easy way to bypass the filetype restrictions and upload your shell wink emoticon so, lets start

Tutorial link::

[Video: <https://www.youtube.com/watch?v=uPXYbMUOxIY>]

Uploader script::<http://www.mediafire.com/view/c0ablc78cb3u3zr/uploader.txt>

This tutorial is for educational purpose only i am not responsible for any harm.
And please suggest me what should i make in my next tutorial and please let me know about my mistakes if i have done in my tutorial grin emoticon

Other shell uploading tutorial by spirit::

1)Upload shell after doing sql- By Spirit

2)Bypass file(mostly shell) upload tutorial-By spirit

Please do some practice grin emoticon

Thanks for watching guys and keep watching pentesting with spirit

you've decent tutorials but i never really understood why you guys all use such a big text size and stuff, it's giving the thread cancer.

you can instantly see from which country you guys are, no offense tho, just wondering.

Your grammar gave me cancer as well, but no offence though.

(Dec 18, 2015 12:52 AM)-zERaIT Wrote: [\[CITE\]](#) you can instantly see from which country you guys are, no offense tho

Like are you fucking kidding me?.

You obviously didn't get the point. Why are you using small text?. The point is that, they can use whatever they like. Don't act like you own this place, just because you got your 500 reputation, and can -3 people. Oh and for the record, yes i'm butt hurt. Can't stand kids like you.

Im gone brah - December 20, 2015, 10:24 am

Yet another childish user comes here bragging about being the next generations grammatical king. Yet, you put a dot behind your question mark and spelled I with lower case. We both know that the tutorial is very ugly, and barely readable due to the font and pick of text size. Zerait, clearly pointed out stuff to improve with a bit of candor in his text. Stop with your fractious and implacable behavior.

Sure, they can write unreadable shit if they want to. But, what is the point of sharing if no one would like to read their shit? I assume they want their readers to have be satisfied and like their contribution, right? Also, alright guide (referring to the video), since a lot of people got trouble with burpsuite.

Oh really?. So he tried to help OP?

(Dec 18, 2015 12:52 AM)-zERaIT Wrote: [\[CITE\]](#) you can instantly see from which country you guys are, no offense tho

Yeah, i see where you are coming from Zayne, and the "no offence tho" just to be a complete dick about it.

Mr.0_0 - December 20, 2015, 11:17 am

Im sorry but i dont know what makes these methods 'advanced' as they've been around for years...literally. None of this is really advanced or new.

stop being a fucking retard lmao

i +rep'd him a while back because he spends alot of time into creating tutorials and does a good job. i was only wondering why he uses such a big text size. nothing more, nothing less.

I clearly stated he may of been a little bit to candor in the post he made. However, he did give feedback and give him some reputation. Don't even get me started.

- Master of html ??????

in some cases it can, in some not. but hey, who the fuck gives a shit.
I was just wondering why he has these big text sizes, again.

oh well. Okay you gave him credit and dissed him at the same time. I was just like "why".

spirited_wolf™ - December 20, 2015, 8:56 pm

sorry guys for my childish post :(:(but i just wants to share my knowledge nothing else :(

maybe lol ... :P but sorry :)

d0uphIx - September 18, 2016, 2:14 pm

When i tried uploading shell on a vulnerable with this method i got this error
Access denied for user 'delhitax_admin'@'localhost' (using password: YES)
Meaning i cant create the php file
datadir is /var/lib/mysql/
