Q: Will my files be removed?

A: Free/non accounts files are kept for unlimited days. Premium accounts files are kept for unlimited days.

Is that an error, or does nothing expire?

It'd be nice to see a list of the restrictions or the default perks of a free member.

Great site! I did notice on your "Premium" page that you have stated that "Files kept for 0 days." I think you meant to put unlimited (from reading your previous posts).
