Here you go....

Bug -

Once I am logged in. And either I click the "Home" or "TurboUpload" icon on the left, the following page gives a blue button of "Register". This should ideally not happen, as I a already a registered user.

Suggestion -

Introduce a Referral link and offer something like. Bring 1 referral and get 7 days of premium account free.

Cheers!

You are welcome. For the first bug....

Just make it something like "My Account" button for the registered users and keep that "Register" button for the unregistered ones.

And one thing more....

That Home button is mixing up with the site features in drop down.

Instead of the heading "Home", make it "Features". Remove the "Home" link from the drop down menu. Keep that "TurboUpload" icon on the left for reaching to homepage (as already there).

Or you can do is, make a separate Home button.
