Thread: [Any tips on how to find unsaturated sites?](#)

yung dagger dick - December 18, 2015, 1:14 am

Hey guys.

I need some tips on how to find unsaturated sites for KIK because these saturated sites aren't giving me and good leads when it comes to customers.

I don't need to be spoonfed the links to unsaturated sites directly but would just like to know how to find these sites.

Thanks! :)

Yeah. I will give you 3 tips.

- 1) Make Google your friend.
- 2) Invest your time in making search on google instead of making threads.
- 3) Dig deeper and deeper until you find whatever you are looking for.

Get creative with the strings that you type into google rather than begging for other people's keywords.

Ensure if you do find sites you don't share them, as soon as one person knows it will get saturated af.
