Thread: [\[Theme\] Need a theme for a webhosting company!](#)

i?fe??ø - December 18, 2015, 6:33 pm

Need a theme from wordpress or anything that I'll be able to use to host a web hosting company!
Anyone know where I'd be able to get 1 from?

NON- - December 18, 2015, 8:01 pm

One that I have come across in the last two days is called Emerald.

<https://wordpress.org/themes/emerald/>

There are also many listed here: <http://wpgurus.net/wordpress-web-hosting-themes/>

You can find some on themeforest.net

They have some pretty good one's

themeforest.net wordpress section, they aren't that expensive and they have a decent documentation so you know how to setup it to your needs
