Thread: [MyBBoost.com - High quality plugins and themes for MyBB](#)

Shade_phil - December 20, 2015, 2:37 pm

MyBBoost

MyBBoost is a new site which contains my personal plugins I have been developing over the years for the MyBB platform. These include high quality addons like the whole My* Connect serie to login and register with Facebook, Twitter and Google+ as stand-alone plugins and my masterpiece, Flyover, which features login and registration with over 20 different social networks. Another available and remarkable plugin is AutoSave Drafts which saves posts and threads as drafts once in a while in order to always have a ready-to-restore backup even if your AC goes off.

You can enjoy chit-chatting thanks to a simple yet powerful chat which will be released as a plugin in the next couple of months, and ask for quality support whenever you want. I am a medicine student so my free time is very spared but I will try to reply as soon as possible to all your question regarding my plugins and themes.

The theme is currently in development but it's quite enjoyable even if it's in its early stages. You can reach it at [mybboost.com](#).
