This class will immerse the student into an interactive environment where they will be shown how to scan, test, hack and secure their own systems. The lab intensive environment gives each student in-depth knowledge and practical experience with the current essential security systems. Students will begin by understanding how perimeter defenses work and then be lead into scanning and attacking their own networks, no real network is harmed. Students then learn how intruders escalate privileges and what steps can be taken to secure a system. Students will also learn about Intrusion Detection, Policy Creation, Social Engineering, DDoS Attacks, Buffer Overflows and Virus Creation. When a student leaves this intensive 5 day class they will have hands on understanding and experience in Ethical Hacking. This course prepares you for EC-Council Certified Ethical Hacker exam 312-50

Enjoy ?

in b4-3 - June 29, 2010, 7:50 am

Wow. Thanks for the share, I'll be downloading this tonight for sure.

m0nk3y - June 29, 2010, 7:53 am

OMG...this is great i would +rep but i don't have any money to obtain leet =(

SryIPwnedU - June 29, 2010, 8:46 am

Wow, if this is what I think this is, then this is great!

(That has a lot of "is"s in it...)

EDIT:

Just a heads up, and bear in mind that I'm not trying to take away from this thread at all, but there is a torrent link here:

<http://#.org/torrent/3586450/>

which might be easier for DLing.

Valour - June 29, 2010, 9:09 am

Hey good ..but the files have got deleted..and one more thing..
the torrent is really not having any seeds so the download isn't starting at all

No, You can use Daemon tools too virtually mount each .iso file.

Heres the tools/exploits/demos/and labs that go along wit the course.

ok I downloaded the Torrent, but how the heck I play the files? I tried use VLC (because it says it's a VLC file type) and it doesn't work x)

Maybe it's just me using the wrong software to play/run the files, sorry i'm a newbie :)

Can someone help me please?

Thank you

EDIT: Nevermind, already have to solution to it. I needed to open the cue file in Daemon Tools, etc, etc, etc x)

Opening it with VLC was quite a fail ???

EDIT2: Btw, just checked that the Torrent (somehow) has only 5 cd's instead of the 7 it says here on the first post, so I'll download from # and maybe upload it to another host ;)
