Awards say nothing about how much your account is worth. ;)

It's all about the history of the specific user who owns that account.

HQ or LQ quality.

That is precisely why I started off by saying Quote:I'm afraid this thread may encourage people to spend money on their accounts as an investment.

They may or may not, it is open for interpretation. You can see for yourself.

Ok if we assume my account is worth \$100 and if I buy the GA (\$1k) award now will my account be worth \$2.1k next year?

Would be a really nice investment even if the price of the awards won't raise

Let us not assume. I'm not the one selling accounts so I won't know either. I rest my case. I believe people on HF are intelligent enough to rely on their own discretion. Good day sir :)
