*Note: Prices that are marked in the Thread are not final.

If you would add extra things, what would you add? It's my first Thread design, and quiet happy about it.

For your first thread design it's not too bad. I'd look at some fonts to change things up, but I'm no GFX artist.

Fuckk

I am calling you next to make a thread design mate.

Silent Storm™ - December 22, 2015, 9:12 am

Simplicity is nice. You did a great job for your first time mate.

Euphoriiaa - December 22, 2015, 9:12 am

I like it, it's clean and simple. Not to over the top. I would suggest changing "cheap" to affordability. Glws Op

Thanks for the tip!?

That looks dope as, GLWS man. bit of ting a bit of tang. :P

It's okay, however some simple changes can make it a lot better. For the white spaces use a better font and add textures similar to one you used in the first palette throughout the thread. I do not like the 'Signatures palette, it's too empty and the font doesn't help compensate for empty space. Make the texts bigger and the palette feel less empty.

It's cool it almost looks like a jawbone design

Ayahuasca - December 22, 2015, 9:46 am

Your quotes need definite work. But as far as design goes it's alright

chrisman0091 - December 24, 2015, 1:08 am

My only suggestion is change "cheap" to "affordable," though the quote obviously says otherwise, the word "cheap" generally gives off a low quality vibe.

Keith Ape - December 24, 2015, 2:24 am

Pretty nice.

Maybe change the font to a little thinner one.

Not bad though :)

CH4P5 - December 26, 2015, 2:58 am

I love simplicity <3

Nice job.

HighK - December 26, 2015, 11:15 am

Love the the two fonts you used, 8/10
