Thread: [\[IN-DEPTH GUIDE\] How I'm making 14k+ satoshis per day with literally 1 minute of work](#)

*sasukemystery - December 22, 2015, 3:34 pm*

Hi guys! let's cut to the chase and stop wasting time because I'm sure ya'll just wanna go out there and make the dough' =)

I'm pretty sure you're used to BTC faucets right? Most of them are complete garbage... They make you watch ads, click on anti-bot, etc... Basically it's really time consuming and the amount you're getting paid is nowhere near worth your time.

Now I'm here to tell you about this website that was just created, I'm sure some of you might've heard of BonusBitcoin? Now, the thing that makes BonusBitcoin special besides the fact that they have an up to 5k claim and an average of 900-1k per claim is that at the end of everyday at exactly 00:00 GMT, whatever is in your BonusBitcoin balance, you'll get an extra 5% of that.

Now as of the time I'm writing this guide, I have 280k, I am currently making 14k per day, it's not 100% auto-pilot as I still have to claim it at least once to do the bonus but it's literally ONE MINUTE ...

Now let's do some simple maths,

Say we have 600k satoshis

Everyday you get 30k and about 5k more (minimal work, 10 minutes max I'd say) so that's 35k per day, this bonus scales so hard because the higher up you get, the easier it is to earn so the key is PATIENCE

Now say we have something like 1,000,000 (1 million) satoshis, that's 50k a day, and say if you get the 20% event, that's 200k a day for about 1 minute of work if you're lazy and just want the bonus... That's waaay more than what these other faucets are paying. It just keeps stacking and stacking and stacking...

You're probably thinking... "Aaaah, this is gonna take me forever..."

NOPE!

I literally got that in A WEEK, all you gotta do is claim every 15 minutes, if you have school (I do as well xD) just do it on your phone, doesn't take too much mobile data. What's ever better about this site is that it's the only ones to do special events such as instead of having 15 minute claims they have 5 MINUTE CLAIMS or 10 MINUTE CLAIMS, this will boost your earnings like crazy!!! In fact, there's one 10 minute claim running right now but it's ending in a few hours, but do not worry! These kind of events happen EVERY WEEK! There is also the 20% bonus sometimes instead of the usual 5% so imagine for me if I have 280k and 20% = 56k!!

I have some private strategies that I'm willing to share only to those that join me under my referral link, I'll give you full support to whatever questions you may have.

So what are you waiting for?

Sign up at [BonusBitcoin](#) NOW!

I play Farm Satoshi, Bitcoin Aliens & Cannon Satoshi.

Never expect too much with BTC in the beginning... The key is to invest it.

I don't know which part you're looking at but according to btcsatoshi \$1 is 227,609 Satoshi

Further proving my point..? "How I'm making 14k+ satoshis per day with literally 1 minute of work."

So it would a long, long time to even make a dollar.... Even if it does only require a minutes worth of work. I signed up, and got 10k satoshi. It is not worth it.

All I was saying was "that isn't worth it then since it is considerably less than a dollar?"

Oh well yeah. Sorry I didn't know which part you were referring to in regards to it being less than a dollar. I guess it depends per person and if you're using multiple sites too.

Yes but it is easily scalable, especially later down the road when your BTC per day goes up, it'll be easier from then on. =)

Also, this is not the only thing, that's what I mean by the other 'methods' where you can multiply your earnings from this.
