Thread: [Gauth for L33t, 3P1C, and Ub3r](#)

Omniscient - December 23, 2015, 11:58 am

I have now enabled Gauth for all upgraded members.

<https://hackforums.net/gauth.php>

It is VITAL that if you're going to participate in the HF Marketplace that you enable Gauth on your account. Restrictions are going to be placed that will require you to have it enabled.

Thank you.

grady - December 23, 2015, 11:58 am

Nice, security for all of us.

:3

CRT - December 23, 2015, 11:59 am

Glad this has been added. No more excuses.

LayndR - December 23, 2015, 11:59 am

Wohoo, thanks. Already enabled it

Juicy - December 23, 2015, 11:59 am

Always a good thing to have more security

Alex - December 23, 2015, 12:01 pm

Nice to see that l33ts can now use gauth.

I really don't understand why there is still ub3rs on hf with gauth disabled

DustDice - December 23, 2015, 12:02 pm

I'd say this isn't the most fair to non-upgraded members. Nevertheless, safety is 1st and if they want to participate they should upgrade.

Delysid - December 23, 2015, 12:02 pm

Quote:Success. Your Gauth code is now activated.

Thanks a lot for enabling this to leet as well!

Spoiler ([Click to View](#)) God, I wish I wasn't perm-denied for ub3r lol

Formant - December 23, 2015, 12:03 pm

Great addition, Omni!

Make sure you guys use Authy!

Bob White - December 23, 2015, 12:04 pm

Got mine added, nobody is jacking my account!

BooGod - December 23, 2015, 12:08 pm

The most desired update, also should force all these members to activate, I still see some people without it activated. Maybe it changes everything now

Omniscient - December 23, 2015, 12:10 pm

(Dec 23, 2015 01:08 PM)BooGod Wrote: [\[CITE\]](#) The most desired update, also should force all these members to activate, I still see some people without it activated. Maybe it changes everything now

Eventually it will be forced on users to participate in Marketplace.

Saint - December 23, 2015, 12:11 pm

Amazing, this will definitely help out alot against accounts being jacked and used to scam people.

BooGod - December 23, 2015, 12:13 pm

Quote:Eventually it will be forced on users to participate in Marketplace.

I think it will work in both ways, more secured marketplace and more accounts security, some people have the love to shopping around marketplace. You forgot to do the quote as usual, just kidding.

?Hero - December 23, 2015, 12:14 pm

Great to see an update like this!

Tommy Shelby - December 23, 2015, 12:14 pm

Now that it will be forced for marketplace posts in the near future, I'm sure lots more people will actually do it now (including myself).

alpa aseo - December 23, 2015, 12:14 pm

Thanks Omni, I really needed this. Do you think this will ever be available for normal users? Mainly for the secondary sellers market.

Ways - December 23, 2015, 12:15 pm

I hate this gauth stuff maybe there's an alternative method? Like email or text confirm

Judicious? - December 23, 2015, 12:18 pm

Just noticed this via userCP. I'll be enabling as soon as I get home.

BooGod - December 23, 2015, 12:21 pm

(Dec 23, 2015 01:15 PM)MONCLER Wrote: [\[CITE\]](#) I hate this gauth stuff maybe there's an alternative method? Like email or text confirm

If you lose your account and get guilty by your account activity I think you wouldn't say that. The seconds you waste typing the six digits its not much aside of many bad things you can get involved off. If you did understand what I say, I have a really bad grammar.

Otis???????????????? - December 23, 2015, 12:22 pm

Nice to see that all upgraded members can secure their accounts.

KFC Watermelon - December 23, 2015, 12:32 pm

I love 2FA and are very happy to see it being used throughout the web. Thanks a lot.

Stashyy - December 23, 2015, 12:32 pm

Well I am happy to see this happen. I just activated it. :)

excr4sh - December 23, 2015, 12:38 pm

Just enabled it minutes ago. thanks Omni.

severos - December 23, 2015, 12:43 pm

It's a nice thing, but restrictions aren't, my mobile is an old Nokia can't use auth apps, not that I participate in market but someone might have same thing, and I'm not planning on changing phone anywhen soon, old mobiles rocks <.<

SIM-2830142 - December 23, 2015, 12:45 pm

Just enabled this, thank you for the extra security.

?Syria - December 23, 2015, 12:53 pm

Do I need a phone with service for this?

Like a phone number?

Omniscient - December 23, 2015, 1:20 pm

(Dec 23, 2015 01:53 PM)?Syria Wrote: [\[CITE\]](#) Do I need a phone with service for this?

Like a phone number?

No, you do not. And if you do HF does not know your number.

Great Suggestion - December 23, 2015, 1:23 pm

(Dec 23, 2015 01:22 PM)Enterpriser Wrote: [\[CITE\]](#) Nice to see that all upgraded members can secure their accounts.

Except leet lol

Edit: as soon as i went to the cpanel it i seen it

(Dec 23, 2015 02:20 PM)Omniscient Wrote: [\[CITE\]](#) No, you do not. And if you do HF does not know your number.

how come you cant buy epic with paypal?

Retribute - December 23, 2015, 1:24 pm

(Dec 23, 2015 02:23 PM)Lord Shaxx Wrote: [\[CITE\]](#) Except leet lol

Edit: as soon as i went to the cpanel it i seen itYou could read the thread.

Vobe - December 23, 2015, 1:25 pm

Enabled it.

Thanks omni.

SWS. - December 23, 2015, 1:25 pm

(Dec 23, 2015 01:43 PM)severos Wrote: [\[CITE\]](#) It's a nice thing, but restrictions aren't, my mobile is an old Nokia can't use auth apps, not that I participate in market but someone might have same thing, and I'm not planning on changing phone anywhen soon, old mobiles rocks <.<

You can use a web browser extension, you don't have to use a phone.

Truth - December 23, 2015, 1:27 pm

will u tell us the reason why u dont want non upgraded members to have this level of security?

Gørilla - December 23, 2015, 1:42 pm

Enabled mine, glad this is an option for us now!

Cryptic™ - December 23, 2015, 1:48 pm

(Dec 23, 2015 02:27 PM)TryAgain Wrote: [\[CITE\]](#) will u tell us the reason why u dont want non upgraded members to have this level of security?

Yeah it would be nice for regular members to have 2FA. Everyone should be able to secure their accs.

The market place should be only for upgraded members with 2FA enabled

VirtualFrost - December 23, 2015, 2:11 pm

Activated it as soon as I saw this. Been wanting to do this for a long time. Kinda enjoy having more security on sites I use frequently.

Light - December 23, 2015, 2:16 pm

(Dec 23, 2015 02:27 PM)TryAgain Wrote: [\[CITE\]](#) will u tell us the reason why u dont want non upgraded members to have this level of security?

You don't want to release something on a forum of this scale openly, he tested the waters with Ub3r and 3p1c now he's testing the waters by giving a huge group of members the feature and I assume in the far future all members will have it, next thing you know everyone's locked out of their accounts. Must test things first, just like Google has "Beta" on all new products.

Ta-kun - December 23, 2015, 2:18 pm

This is great! Tired of seeing people posting "Account Compromised" threads.

#Skyline - December 23, 2015, 2:20 pm

Security stepping up a level, good shit Omni.

reBELLYus - December 23, 2015, 2:20 pm

Very good. Maintaining a secure account is important. Especially for those who deal within the marketplace here.

Griev?us - December 23, 2015, 2:22 pm

Awwwwwesome! Glad to see this! Thanks for adding this to L33T users lets just hope they use it now.
?

Trenchguns - December 23, 2015, 2:30 pm

Do we have an eta for when the requirement will be set in place? (I know it's not exact, but are we talking days, weeks, months?)

blocknode - December 23, 2015, 2:31 pm

Thanks alot for this. I hope this decreases the scamming.

NoobCell - December 23, 2015, 2:31 pm

I don't have a smart phone o.0 so im screwed xD

Black Shadow - December 23, 2015, 2:36 pm

How does this work were do you get a code from?

Ahri????? - December 23, 2015, 2:36 pm

(Dec 23, 2015 03:31 PM)°C?IL Wrote: [\[CITE\]](#) I don't have a smart phone o.0 so im screwed xD

If you live in the US you have no reason to make the excuse that you have no smart phone. Else outside of the US you could always just use 2FA on your pc.

Omniscient - December 23, 2015, 2:54 pm

(Dec 23, 2015 03:30 PM)Trenchguns Wrote: [\[CITE\]](#) Do we have an eta for when the requirement will be set in place? (I know it's not exact, but are we talking days, weeks, months?)
Days. Within hours possibly.

Yes you do, there's tons of reasons why someone won't buy a smartphone.

Vanilja - December 23, 2015, 3:03 pm

(Dec 23, 2015 03:36 PM)Black Shadow Wrote: [\[CITE\]](#) How does this work were do you get a code from?Not sure what you mean with this?

The code is generated via the app, a new code will be generated every 30 seconds and that code is required to login.

Algorithm is TOTP, I believe.

https://en.wikipedia.org/wiki/Time-based_One-time_Password_Algorithm

(Dec 23, 2015 04:01 PM)?Infamy Wrote: [\[CITE\]](#) Yes you do, there's tons of reasons why someone won't buy a smartphone.Even if there are tons of reason for it, doesn't mean everyone have one.

Ahri????? - December 23, 2015, 3:37 pm

(Dec 23, 2015 04:01 PM)?Infamy Wrote: [\[CITE\]](#) Yes you do, there's tons of reasons why someone won't buy a smartphone.

If cost is the reason then guess \$20 must be too much to spend on a smart device.

BrianKush - December 23, 2015, 3:41 pm

Great to hear about this, I've went ahead and enabled 2fa. I've also went ahead and purchased 3p1c for trust scan access.

Black Shadow - December 23, 2015, 4:48 pm

I done this without an android phone I done it a while ago from my PC I remember but I dont remember the code how can I change it?

Biker BoyZ - December 23, 2015, 4:50 pm

Thanks for this omni, I have been waiting for this a long time now. I appreciate this. my phone is currently dead but once its charged ill authy this to my phone. I hope you have a great Christmas and a happy new year. I'am currently going to be off for a few days now so have fun and enjoy with your family. This time we should consider Trust scan on all upgraded members to check up scams and multi account warnings. this would help alot.

Trenchguns - December 23, 2015, 4:52 pm

(Dec 23, 2015 03:54 PM)Omniscient Wrote: [\[CITE\]](#) Days. Within hours possibly.
Cool. I look forward to it.

But I just know there will be a bunch of threads wondering what is going on, and people are definitely gonna complain about it, but w/e.

Any for internet explorer?

Thank you.

w?????illiam???? - December 23, 2015, 5:17 pm

Recently was gifted 3p1c by someone so I could enable my Gauth, either way, I'm still grateful you've done this so now people can be protected! Keep up the great work, Omni and happy holidays!

Grammar Rays - December 23, 2015, 5:29 pm

I have enabled this. Thanks for making it available for L33T.

ZuGgY - December 23, 2015, 5:41 pm

Very cool.

Thanks for the update, Omniscient.

N - December 23, 2015, 5:52 pm

Nice upgrade feature! All members who are upgraded should definitely enable this ASAP!

Cooligan - December 24, 2015, 12:21 am

I'm sure you just made l33t and non upgraded members very happy with this, I know I'd be.

It's nice to see that everyone is able to secure their account now.

StevesTrolls - December 24, 2015, 5:07 am

Thanks for the change Omni, hopefully it'll make a difference in the Marketplace.

SIM-2362224 - December 24, 2015, 1:53 pm

Thank you so much! Excited to start using Authy

Llama™ - December 24, 2015, 1:55 pm

I activated my gauth today. Feels safe as fuck.

Zeroxal - December 27, 2015, 4:25 am

Upgraded on 22nd to UB3R for the Gauth feature. Well...

But good thing to hear that it's enabled for everyone :P

Zombie [?] - December 27, 2015, 4:29 am

Good thing its enabled for l33ts too. Makes us a lot more secure.

Hello Buddy - December 27, 2015, 7:57 am

Just enabled mine! Have fun getting into my account now!!!

Meme. - December 27, 2015, 8:19 am

This is Omni's christmas gift for us? :P

Enabled it
