You're mixing 2 styles here. I would recommend making "Prices" also Proxima Nova Bold like "Contact".

And with the text "PM ME" and your skype I would use stick with Proxima Nova Regular like how I made it first.

There are also other things I would've done better, but I don't have time to write them. But keep learning tho!

btw, I would recommend making a portfolio on carbonmade.com

Check out mine:

I sorted them by type (sig or thread design)
