Satoshi's DDoS Service

ToS:

This is a hourly payment service (max is 3 hours.)

I can attack home connections, and website's that are not on the blacklist.

I will not attack OVH servers.

I will not attack popular websites.

I will not attack myself, lol.

BLACKLIST:

PM me if you want your website blacklisted. (\$1)

I won't be doing any attacks today, since it's Christmas, but tomorrow I'll be online.

Just PM me if you want any attacks for tomorrow.

\$3 per hour, you're crazy for sure.
That's way too expensive.

For a bit more money you can get 1 month, more than 1 hour boottime.

I think it seems pretty reasonable lol, plus that's a subscription and most booters are sucky and cost more for monthly if you want to take down sites.
